Journal of Genetic Psychology, 149, 559–563

Index to Volume 149

This annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (March): Pages 1 through 136
Number 2 (June): Pages 137 through 272
Number 3 (September): Pages 273 through 420
Number 4 (December): Pages 421 through 564

AUTHOR INDEX

Amstey, F. H., & Whitbourne, S. K. *Work and motherhood: Transition to parenthood and women's employment,* 111–118.

Barnett, M. A. *Reasons for not wanting help: Categories and developmental differences,* 127–129.

Barnett, M. A., & McMinimy, V. *Influence of the reason for the others' affect on preschoolers' empathic response,* 153–162.

Berzonsky, M. D. *Child animism: Situational influences and individual differences,* 293–303.

Berzonsky, M. D., Miller, P. H., Woody-Ramsey, J., & Harris, Y. *The relationship between children's judgments of animacy and sentiency: Another look,* 223–238.

Blanchard-Fields, F., & Irion, J. C. *Coping strategies from the perspective of two developmental markers: Age and social reasoning,* 141–151.

Boykin, A. W., & Allen, B. A. *Rhythmic-movement facilitation of learning in working-class Afro-American children,* 335–348.

Brook, J. E., & Brook, J. S. *A developmental approach examining social and personal correlates in relation to alcohol use over time,* 93–110.

Brook, J. S., Whiteman, M., Brook, D. W., & Gordon, A. S. *Depressive mood in female college students: Father–daughter interactional patterns,* 485–504.

Brown, N. L., Brown, R. M., & Robinson, H. B. *Basic-level categorization in preschoolers, school-age children, and college students,* 239–255.

Bus, A. G., & van IJzendoorn, M. H. *Attachment and early reading: A longitudinal study,* 199–210.

Dufresne, A., & Kobasigawa, A. *Developmental differences in children's spontaneous allocation of study time,* 87–92.

Eisenberg, N., Cameron, E., Pasternack, J., & Tryon, K. *Behavioral and sociocognitive correlates of ratings of prosocial behavior and sociometric status,* 5–15.

Fehr, L. A. *The coordination of perspectives: An analysis of the importance of methodological factors,* 61–66.

Feldt, R. C., & Witte, K. L. *Mnemonic benefits of digit–list organization: Test of the developmental lag hypothesis of reading retardation,* 459–469.

Furnham, A., & Brewin, C. R. *Social comparison and depression,* 191–198.

Gates, L., Lineberger, M. R., Crockett, J., & Hubbard, J. *Birth order and its relationship to depression, anxiety, and self-concept test scores in children,* 29–34.

Giblin, P. T., Poland, M. L., Waller, J. B., & Ager, J. W. *Correlates of neonatal morbidity: Maternal characteristics and family resources,* 527–533.

Giblin, P. T., Poland, M. L., Waller, J. B., & Ager, J. W. *Correlates of parenting on a neonatal intensive care unit: Maternal characteristics and family resources,* 505–514.

Goodwin, M. P., Sawyers, J. K., & Bailey, K. *The effects of exploration on preschoolers' problem-solving ability,* 317–333.

Gulko, J., Doyle, A., Serbin, L. A., & White, D. R. *Conservation skills: A replicated study of order of acquisition across tasks,* 425–439.

Henderson, B. B. *Individual differences in exploration: A replication and extension,* 555–557.

Kurtz, B. E., Borkowski, J. G., & Deshmukh, K. *Metamemory and learning in Maharashtrian children: Influences from home and school,* 363–376.

Lobel, T. E., & Winch, G. L. *Psychosocial development, self-concept, and gender,* 405–411.

McCabe, A., & Peterson, C. *A comparison of adults' versus children's spontaneous use of* because *and* so, 257–268.

McCann, S. J. H., & Stewin, L. L. *Worry, anxiety, and preferred length of sleep,* 413–418.

McIntosh, D., & Rawson, H. E. *Effects of a structured behavior modification treatment program on locus of control in behaviorally disturbed children,* 45–51.

Miletic, G. *Children's awareness of the interaction of person, task, and strategy variables in memory and communication,* 211–222.

Paul, E. L., White, K. M., Speisman, J. C., & Costos, D. *Marital conflict and adjustment: Speech nonfluencies in intimate disclosure,* 175–189.

Peterson, C., & Marrie, C. *Even 4-year-olds can detect inconsistency,* 119–126.

Peterson, C., & Skevington, S. *The relation between young children's role-taking and mothers' preference for a conflict-inducing childrearing method,* 163–174.

Reis, J. *Correlates of depression according to maternal age,* 535–545.

Rexroad, K., & White, H. *Sex differences in visual and tactual modes of texture discrimination,* 131–132.

Rigby, K. *Parental influence on attitudes toward institutional authority,* 383–391.

Rosén, L. A., Furman, W., & Hartup, W. W. *Positive, negative, and neutral peer interactions as indicators of children's social competency: The issue of concurrent validity,* 441–446.

Seginer, R., Cohen, Y. B., & Zukerman, S. *Mothers' characteristics and first-grade boys' performance: Testing an academic achievement path model,* 349–361.

Silverman, W. K., & Nelles, W. B. *The influence of gender on children's ratings of fear in self and same-aged peers,* 17–21.

Sprafkin, J., & Gadow, K. D. *The immediate impact of aggressive cartoons on emotionally disturbed and learning disabled children,* 35–44.

Stamps, L. E. *The Type A behavior pattern in children: Relationships with performance on speed oriented tasks,* 53–60.

Stevens, B., & Yussen, S. R. *What's wrong? Children's detection of subtle order violations in narratives,* 277–291.

Stevens, J. H. *Shared knowledge about infants among fathers and mothers,* 515–525.

Sweeney, J., & Bradbard, M. R. *Mothers' and fathers' changing perceptions of their male and female infants*

over the course of pregnancy, 393–404.
Teltsch, T., & Breznitz, Z. *The effect of school entrance age on academic achievement and social-emotional adjustment of children*, 471–483.
van Dam, M., & van IJzendoorn, M. H. *Measuring attachment security: Concurrent and predictive validity of the Parental Attachment Q-set*, 447–457.
van IJzendoorn, M. H., & van Vliet-Visser, S. *The relationship between quality of attachment in infancy and IQ in kindergarten*, 23–28.
Vianello, R., & Lucamante, M. *Children's understanding of death according to parents and pediatricians*, 305–316.
Vitaro, F., & Robert, M. *Observational learning of conservation: The significance of imitation propensity and opportunity*, 67–86.
Walker, T., & Johnson, D. L. *A follow-up evaluation of the Houston parent–child development center: Intelligence test results*, 377–381.
West, A. N., & Martindale, C. *Primary process content in paranoid schizophrenic speech*, 547–553.

TITLE INDEX

Attachment and early reading: A longitudinal study. *Adriana G. Bus and Marinus H. van IJzendoorn*. 199–210.
Basic-level categorization in preschoolers, school-age children, and college students. *Norma L. Brown, R. Michael Brown, and Halbert B. Robinson*. 239–255.
Behavioral and sociocognitive correlates of ratings of prosocial behavior and sociometric status. *Nancy Eisenberg, Ellen Cameron, Jeannette Pasternack, and Kelly Tryon*. 5–15.
Birth order and its relationship to depression, anxiety, and self-concept test scores in children. *Larry Gates, Mable Rowe Lineberger, Jeanine Crockett, and James Hubbard*. 29–34.
Child animism: Situational influences and individual differences. *Michael D. Berzonsky*. 293–303.
Children's awareness of the interaction of person, task, and strategy variables in memory and communication. *Gordana Miletic*. 211–222.
Children's understanding of death according to parents and pediatricians. *Renzo Vianello and Maria Lucamante*. 305–316.
A comparison of adults' versus children's spontaneous use of *because* and *so*. *Allyssa McCabe and Carole Peterson*. 257–268.
Conservation skills: A replicated study of order of acquisition across tasks. *Judith Gulko, Anna-Beth Doyle, Lisa A. Serbin, and Donna R. White*. 425–439.
The coordination of perspectives: An analysis of the importance of methodological factors. *Lawrence A. Fehr*. 61–66.
Coping strategies from the perspective of two developmental markers: Age and social reasoning. *Fredda Blanchard-Fields and Jane Coleman Irion*. 141–151.
Correlates of depression according to maternal age. *Janet Reis*. 535–545.
Correlates of neonatal morbidity: Maternal characteristics and family resources. *Paul T. Giblin, Marilyn L. Poland, John B. Waller, and Joel W. Ager*. 527–533.
Correlates of parenting on a neonatal intensive care unit: Maternal character-

istics and family resources. *Paul T. Giblin, Marilyn L. Poland, John B. Waller, Jr., and Joel W. Ager.* 505–514.

Depressive mood in female college students: Father–daughter interactional patterns. *Judith S. Brook, Martin Whiteman, David W. Brook, and Ann Scovell Gordon.* 485–504.

A developmental approach examining social and personal correlates in relation to alcohol use over time. *Jonathon E. Brook and Judith S. Brook.* 93–110.

Developmental differences in children's spontaneous allocation of study time. *Annette Dufresne and Akira Kobasigawa.* 87–92.

The effect of school entrance age on academic achievement and social-emotional adjustment of children. *Tamar Teltsch and Zvia Breznitz.* 471–483.

Effects of a structured behavior modification treatment program on locus of control in behaviorally disturbed children. *David McIntosh, Jr., and Harve E. Rawson.* 45–51.

The effects of exploration on preschoolers' problem-solving ability. *Megan P. Goodwin, Janet K. Sawyers, and Kris Bailey.* 317–333.

Even 4-year-olds can detect inconsistency. *Carole Peterson and Cathy Marrie.* 119–126.

A follow-up evaluation of the Houston parent–child development center: Intelligence test results. *Todd Walker and Dale L. Johnson.* 377–381.

The immediate impact of aggressive cartoons on emotionally disturbed and learning disabled children. *Joyce Sprafkin and Kenneth D. Gadow.* 35–44.

Individual differences in exploration: A replication and extension. *Bruce B. Henderson.* 555–557.

The influence of gender on children's ratings of fear in self and same-aged peers. *Wendy K. Silverman and Wendy B. Nelles.* 17–21.

Influence of the reason for the other's affect on preschoolers' empathic response. *Mark A. Barnett and Vera McMinimy.* 153–162.

Marital conflict and adjustment: Speech nonfluencies in intimate disclosure. *Elizabeth L. Paul, Kath'een M. White, Joseph C. Speisman, and Daryl Costos.* 175–189.

Metamemory and learning in Maharashtrian children: Influences from home and school. *Beth E. Kurtz, John G. Borkowski, and Kalyani Deshmukh.* 363–376.

Measuring attachment security: Concurrent and predictive validity of the Parental Attachment Q-set. *Marion van Dam and Marinus H. van IJzendoorn.* 447–457.

Mnemonic benefits of digit–list organization: Test of the developmental lag hypothesis of reading retardation. *Ronald C. Feldt and Kenneth L. Witte.* 459–469.

Mothers' and fathers' changing perceptions of their male and female infants over the course of pregnancy. *Joanne Sweeney and Marilyn R. Bradbard,* 393–404.

Mothers' characteristics and first-grade boys' performance: Testing an academic achievement path model. *Rachel Seginer, Yehudit Bialik Cohen, and Sandra Zukerman.* 349–361.

Observational learning of conservation: The significance of imitation propensity and opportunity. *Frank Vitaro and Michele Robert.* 67–86.

Parental influence on attitudes toward institutional authority. *Ken Rigby.* 383–391.

Positive, negative, and neutral peer interactions as indicators of children's social competency: The issue of concurrent validity. *Lee A. Rosén, Wyndol Furman, and Willard W. Hartup.* 441–446.

Primary process content in paranoid schizophrenic speech. *Alan N. West and Colin Martindale.* 547–553.

Psychosocial development, self-concept, and gender. *Thalma E. Lobel and Guy L. Winch.* 405–411.
Reasons for not wanting help: Categories and developmental differences. *Mark A. Barnett.* 127–129.
Rhythmic-movement facilitation of learning in working-class Afro-American children. *A. Wade Boykin and Brenda A. Allen.* 335–348.
The relation between young children's cognitive role-taking and mothers' preference for a conflict-inducing childrearing method. *Candida Peterson and Sally Skevington.* 163–174.
The relationship between children's judgments of animacy and sentiency: Another look. *Michael D. Berzonsky, Patricia H. Miller, Janet Woody-Ramsey, and Yvette Harris.* 223–238.
The relationship between quality of attachment in infancy and IQ in kindergarten. *Marinus H. van IJzendoorn and Sita van Vliet-Visser.* 23–28.
Sex differences in visual and tactual modes of texture discrimination. *Kevin Rexroad and Hedy White.* 131–132.
Shared knowledge about infants among fathers and mothers. *Joseph H. Stevens, Jr.* 515–525.
Social comparison and depression. *Adrian Furnham and Chris R. Brewin.* 191–198.
The Type A behavior pattern in children: Relationships with performance on speed oriented tasks. *Leighton E. Stamps.* 53–60.
What's wrong? Children's detection of subtle order violations in narratives. *Barbara Stevens and Steven R. Yussen.* 277–291.
Work and motherhood: Transition to parenthood and women's employment. *Frederica H. Amstey and Susan Krauss Whitbourne.* 111–118.
Worry, anxiety, and preferred length of sleep. *Stewart J. H. McCann and Leonard L. Stewin.* 413–418.
